

PRESS RELEASE

Rolande Acquires ENN Clean Fuels B.V.

Titan LNG's Sister Company Rolande adds Zaandam and Oss LNG filling stations to its network, bringing total to 8

Tilburg, The Netherlands, 4th of July, 2017: Rolande has announced it has acquired ENN Clean Fuels BV, adding the Dutch Zaandam and Oss LNG truck refuelling stations to its extensive network. Rolande now owns and operates a total of 8 stations throughout the Netherlands.

CEO of Rolande, Jolon van der Schuit, commented: "With the acquisition of the ENN stations we further strengthen our market position in the Netherlands. As a specialist focused on LNG as a fuel for trucks, we know better than anyone that now the LNG market is at this time still relatively small in the Netherlands, a strong focus is needed to make LNG and bio-LNG strong in the market.

Heavy truck transport can and should be greener. As market leader, we work to achieve this by offering our customers a national and ultimately Europe-wide network of LNG filling stations. We are investing to produce LNG from Bio-Gas, as we believe that Bio-LNG has the future in a world that needs to reduce its carbon footprint. We aim to ramp up our production of bio LNG in the near future."

About Rolande

Rolande is the leading LNG Filling station owner and operator in the Netherlands. Rolande has an extensive network of 8 filling stations across the Netherlands, making it the largest LNG distributor to the road sector supporting over 250 LNG fuelled trucks on the roads. Rolande is a 100% owned subsidiary of IVECO Schouten Group.

About Titan LNG:

Titan LNG is a leading full service supplier of LNG to the marine and industrial markets in North West Europe. Titan LNG specializes in providing shipping customers with bespoke end-to-end LNG solutions like the T-piece and FlexFueller project, including project planning, supply and delivery as well as risk management and hedging services to mitigate price fluctuations. Titan LNG is part of the IVECO Schouten Group.
